Subject: May 2018 Site Tour with D, Benevento

Dear Mike:

Good meetings over the last few days very productive I believe

I wanted to recap our discussion from this week about Administrator Benevento's visit to the Columbia Falls site and to begin the planning process. We are looking forward to hosting the administrator at the May meeting of the CFAC Community Liaison Panel.

Plans are to begin the session at the normal meeting time for the group 5:30 PM as we have always done in the past. We will start with a project overview in the site conference room, which will be followed by a site tour. We will conclude the tour back in the conference room with questions and answers and comments by the administrator.

Ann Green Communications will be in touch with Robert Moler in the next week to discuss logistics and meeting preparation. As with all panels meetings, this meeting will be open to the public and publicized in advance.

Should you think of anything else please let us know.

Thanks

John
